Nicole –

As you likely saw from my out-of-office messages, I have been out of the office all week.

In response to this September 20, 2017 e-mail requesting additional information our monitoring consultant CAS was able to get back to us quickly. Accordingly, the flow verification reports are attached per your first request.

Regarding your second request, CAS confirmed that the filter-based units did not have any malfunctions for the period 7/27/17 – 7/30/17.

Subject: RE: S.H Bell Data Requests

Hello Scott:

EPA has two requests:

- (1) Please submit a copy of the next quarterly flow rate verification report after its completion. As a preliminary matter, we ask that you get back to us asap with a time frame for the submission of this document.
- (2) Please confirm that the filter-based units did not have any malfunctions on the following dates: 7/27/17 to 7/30/17.

Thanks very much.

Best,

Nicole Cantello
